There is much more to being an effective buyer's agent than unlocking doors of homes. I put forth the extra effort of staying current on the best, low-cost loan products to effectively help you. I've received the highest award possible at Chapman Richards as a prestigious Master's Club member for my expertise of the current market and knowledge of homes, value, neighborhoods, and resale potential. I was previously a VP in the computer industry for 20+ years, have a very high IQ, and have attended national training over many decades on how to listen in order to use your time effectively. I'm a professional coach to help your knowledge of electrical & plumbing, etc. and educate you on all that you need to know in order to make an informed decision.

I have formal education as a CERTIFIED NEGOTIATION EXPERT with over three decades of experience winning in \$1 Million negotiations. Most people don't know that 99% of all Realtors in our country have absolutely no training at all in negotiation. Wow! In many areas right now, my skills can make the difference in whether you get your first choice or not. There is also price, terms, time tables, and repairs that are all negotiable. With my advanced negotiating skills, you win! This is what one of my recent clients has to say. . .

Many mistakenly assume all Realtors are the same. That is why many of my competitors hope you will base your agent selection on relationships rather than doing your homework and selecting the BEST QUALIFIED PERSON FOR THE JOB. It is because of my life-long commitment to skills development, that I help numerous really smart people. Many of my clients work in the medical field, dentistry, law, engineering, technology, IT, finance, genetics, and other high level contributors who demand and appreciate my extra level of service!
